

PacStar Appoints Peggy Miller to Chief Financial Officer and Bob Dunn to Senior Vice President of Sales and Marketing

New Executives Add Proven Industry Experience to PacStar

Portland, Ore. (October 23, 2007)—PacStar™, a technology-based systems integrator that provides total communications solutions to military, government and commercial customers, today announced that Peggy Miller has joined the company as its Chief Financial Officer and that Bob Dunn joins the company as Senior Vice President of Sales and Marketing. Miller and Dunn will report to PacStar CEO Robert Frisbee and will be based in Portland, Oregon and Washington D.C. respectively.

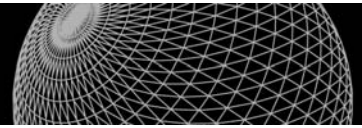

“We’re excited to welcome both Peggy and Bob to our senior leadership team at one of the most significant times in PacStar’s history,” said Robert Frisbee, CEO of PacStar. “Peggy’s experience growing and strengthening finances and Bob’s proven leadership – most recently as President of Nortel Government Solutions - building successful government sales organizations will be critical to our success as we continue to grow our business and exceed the expectations of the market.”

Miller has an established record of building businesses and strengthening finances through a series of executive-level management positions. She is a highly experienced financial professional and joins PacStar from her most recent position as a partner with Tatum, LLC, the largest and fastest growing executive services firm in the United States, where she provided strategic financial consulting services to a variety of companies. Miller is also a Trustee of Excelsior College and served as the Treasurer and Public Member of the National League for Nursing from 1999 to 2006, where she recently received recognition for her leadership in restoring the financial strength of the organization.

“PacStar is the clear leader in providing deployable communications to remote areas of the world and is part of a major market that promises to bring excellent growth opportunities,” said Peggy Miller, PacStar’s new Chief Financial Officer. “I look forward to working closely with the team to help plan and execute the company’s next phase of expansion.”

A veteran of government sales, Dunn comes to PacStar from Nortel where he was President of Nortel Product Solutions of Nortel Government Solutions, responsible for all Nortel sales of products and product related services. Prior to this position, he was the Executive Vice President and General Manager of Nortel Government Solutions after the merger between Nortel and PEC Solutions. Dunn has a 20 year career in communications, holding numerous business development and management roles for NYNEX, Northern Telecom, Bell Atlantic and Nortel Networks.

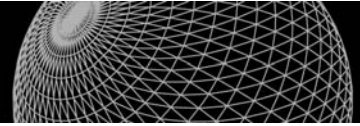

“When PacStar approached me about joining the team, I took a very hard look at their business and the market opportunity,” commented Bob Dunn, incoming Senior Vice President of Sales and Marketing of PacStar. “After doing some very serious due diligence, it became clear that the technology PacStar has developed meets a critical, yet currently unmet, need in the deployable communications space. I’m looking forward to helping PacStar tap what is in most estimates a multi-billion dollar market.”

PacStar Makes Major Gains in 2007

PacStar welcomes Miller and Dunn on the heels of one of the most successful years in the history of the company, highlights include:

- *Major Customer Deployments* – Through September 2007, PacStar has exceeded its targets for revenue and customer wins. Two of the most significant customer deployments include the deployment of the PacStar 5500 by United States Central Command in Afghanistan that is providing the Afghanistan National Army with secure voice, data and video communications. Additionally, the United States Army Reserve Command (USARC) is using the PacStar 5500 and the LGS, a subsidiary of Alcatel-Lucent (NYSE: ALU), Tactical Base Station Router to train USAR soldiers deploying to combat zones in the Middle East, as well as supporting a number of its posts across the country for disaster relief and continuity of operations. Please visit <http://www.pacstar.com/pgs/news.html> for more information on PacStar customer deployments.
- *Significant Technology Achievements* – PacStar technologies continue to be recognized as the dominant software management platforms for deployable communications. This year, PacStar strengthened its IQ-Core Software, an advanced, wizard-based, adaptable network management system that simplifies and secures complex communications systems and deployable networks, which is now being used by major government organizations throughout the world. For more information on PacStar's IQ-Core Software, go to http://www.pacstar.com/pgs/iqcore_technologies.html
- *New Round of Funding* – In July, PacStar secured an additional \$12.3 million that is being used to accelerate the penetration of PacStar technologies into key military and civilian markets. Additionally, the company strengthened its board by adding Matt McCooe, Managing Partner of Chart Venture Partners and Charlie Kemper, Principal at Steelpoint Capital Partners. Both McCooe and Kemper have a solid track record managing and leading rapid growth technology companies. For more information on the funding, please visit http://www.pacstar.com/docs/PressRelease/2007/press_071707.pdf.
- *Company Awards* – PacStar was recognized by *Vertical Systems Reseller Magazine* as the sole winner of its VSR All Star VAR Awards in the public sector category. VSR commented that PacStar demonstrated excellence in dealing with government customers, offering state-of-the-art technology, superior service and support and demonstrated a clear plan for growth. Additionally, PacStar's director of strategic initiatives was honored by *Washington Technology* as one of its 2007 Channel Award Leaders. For more information on the VSR or Channel Award Leader awards go to http://www.pacstar.com/docs/PressRelease/2007/press_092807.pdf and http://www.washingtontechnology.com/print/22_15/31247-6.html respectively.
- *New and Growing Partnerships* – Partners like Cisco and LGS, a subsidiary of Alcatel-Lucent (NYSE: ALU) and others are turning to PacStar to increase the benefits their customers receive from their deployable communications systems product lines. To learn more about PacStar's partners or to join its partner program, please go to <http://www.pacstar.com>.
